

## **SCHEDULE 26-I**

### **COST RECOVERY FOR JTIQ UPGRADES CONSTRUCTED BY MISO TRANSMISSION OWNERS AND RECOVERED FROM JTIQ COMMITMENT GROUP MEMBERS**

#### **I. Definitions**

Unless defined in this Schedule 26-I, any capitalized terms used in this Schedule 26-I shall have the meaning as defined in Attachment JJJ of the MISO Tariff, except that for purposes of this Schedule 26-I MISO Transmission Owner shall include any Transmission Owner or ITC in MISO responsible for the construction of a Joint Targeted Interconnection Queue Upgrade (“JTIQ Upgrade”) under the MISO Tariff.

#### **II. Introduction and Purpose**

This Schedule 26-I sets forth the methodology for collecting the JTIQ Monthly Revenue Requirements for JTIQ Upgrades constructed by MISO Transmission Owners. Only JTIQ Generator Charges related to JTIQ Upgrades constructed by MISO Transmission Owners shall be collected under this Schedule 26-I.

#### **III. Applicability**

**A.** The JTIQ Generator Charges under this Schedule 26-I shall be charged to JTIQ Commitment Group Members. Such JTIQ Generator Charges shall be assigned according to the applicable JTIQ Portfolio, by Transmission Owner, by specific JTIQ Upgrade, and by specific Commitment Group based on each JTIQ Commitment Group Member’s pro-rata share of the applicable Threshold MW Value or Final Committed MW Total.

**B.** Each year, MISO shall include all eligible JTIQ Upgrades by Transmission

Owner and/or ITC in Appendix A of the MTEP in accordance with the provisions of Attachment FF. The costs of each JTIQ Upgrade shall be allocated between MISO and SPP in accordance with Section 9.4. of the Joint Operating Agreement between MISO and SPP (MISO Rate Schedule 6).

**IV. MISO JTIQ Transmission Owners JTIQ Upgrade Generator Charge**

**A. Derivation of Monthly JTIQ Generator Charge**

The MISO JTIQ Transmission Owners shall periodically update the JTIQ Monthly Revenue Requirements for JTIQ Upgrades constructed by MISO Transmission Owners in accordance with the provisions of Attachment JJJ of the MISO Tariff. These updates will occur when the JTIQ Upgrade is first placed in service or on August 1<sup>st</sup> of each year or as needed, based on the Transmission Owner's JTIQ Formula Rate Template as provided in Exhibit I through Exhibit VIII. Those JTIQ Monthly Revenue Requirements shall be used by MISO to calculate each JTIQ Commitment Group Member's monthly JTIQ Generator Charge by multiplying the JTIQ Generator Rate for the applicable Commitment Group by the JTIQ Commitment Group Member's Committed MWs.

**B. Distribution of Schedule 26-I Revenue to MISO JTIQ Transmission Owners**

Each month amounts collected by MISO, as described in Section IV.A of this Schedule 26-I, less any Reimbursement of Backstop amounts to MISO Transmission Customers for acting as the Backstop per Schedule 26-H, determines the net Schedule 26-I revenue to be distributed to MISO Transmission Owners. MISO shall remit the amount shown in Exhibit(s) III, Lines 210, Column G of Attachment JJJ for each JTIQ Commitment Group Member in each Commitment Group for the applicable JTIQ Upgrade constructed by the MISO Transmission Owner.
